TIME TRAVELLING SCAVENGER HUNT!

Welcome to living in Humboldt over the past few decades!

The Humboldt & District Museum has many artefacts that can tell us a lot about what life has been like in Humboldt since the town was formed in 1907!

Follow the clues to different objects that people who were living in Humboldt would have used over the years, and find the secret words. Write the words into the blank spaces on the last page.

1. You wake up with the sun on a beautiful prairie morning in the 1920s! Where would you go to ask one of your parents for nice cup of tea to start your day?

2. It's getting late....you need to get to your one-room schoolhouse before the teacher takes attendance. Your desk is third from the front on the right-hand side of the room. Did you leave something written on your slate yesterday?

3. Why not go for a skate at the Leo Parker Arena over lunch? Today we have people who drive Zambonis to keep the ice nice and smooth. Find out how they used to keep the ice smooth for skating!

4. Your family just got a phone in your home! You want to call your friend to say hi. What machine was used to connect your phone to your friend's phone?

5. Your mom said that you need to get a haircut! Mr. Stebbings is nice, but he always uses cold water when he washes your hair in the sink.

6. Even in the past, people loved music and dancing! Why not "cut a rug" to Inez Bower's latest record!

7. One thing that you really would not want to do in the past is go to the Dentist! While you are there, have a look at all the false teeth in Dr. Heidgerkin's office! Especially the "tapering ovoid"....they sound funny.

8. When you are not feeling well, your parents might take you to see the nurses at St. Elizabeth's Hospital. It is really interesting to see how their hats have changed over the years!

9. Time for dinner. Your parents might need to stop by Brusers to pick up a few things. Ask them for the biscuits behind the counter!
